#### Notes

\* Note that personal data may be shared with the relevant bodies as required by law, for example in order to report safeguarding concerns, in response to a request by law enforcement agencies or HMRC, and for Ofsted inspections. These could apply to all types of data so are not itemised separately in the 'shared externally with' column.

\*\* GDPR requires us to keep data no longer than necessary. However, many items of data used by an early years setting are legally required to be kept for significant periods after a child has left your care, or a member of staff has left employment. It is good practice to keep some types of data for longer than the legal minimum in order to protect against future legal cases. It is therefore 'necessary' to keep some items of data even after the relationship with the individual has ended in order to meet these pre-existing legal and business requirements.
